Commander-AT4 Model Description:

Defined as the new millennium solution for rugged portables, the Commander-AT4 is a slim design with powerful features. This all-in-one model is a great mobile solution offering 2 full length PCI slots. It is the smallest lunchbox computer on the market accommodating a 15" super TFT LCD screen for a truly satisfying viewing experience. An important aspect of the Commander-AT4 is that all components that you can find off the shelf or proprietary designed will fit into this case. If the peripheral is designed according to industry standard for interconnectivity then it will fit into the Commander-AT4.
